

Guidelines on On-campus Classes for Multicultural Families

- With the transition to maintaining distance in daily life in relation to COVID-19, the phased and sequential reopening of elementary, middle, and high schools will begin nationwide in 2020.

[Starting date for classes according to grade]

Phase	Schedule	Applicable students		
		High School	Middle School	Elementary School
Preliminary phase	May 20 (Wed.)	3 rd grade		
Phase 1	May 27 (Wed.)	2 nd grade	3 rd grade	1 st & 2 nd grades, elementary + kindergarten
Phase 2	June 3 (Wed.)	1 st grade	2 nd grade	3 rd & 4 th grades, elementary
Phase 3	June 8 (Mon.)		1 st grade	5 th & 6 th grades, elementary

※ Smaller elementary and middle schools with no more than 60 students in the region, excluding special and metropolitan cities, are allowed to reopen their on-campus classes from May 20, and the dates and methods will be determined individually according to the municipal and provincial conditions.

- Individual municipal and provincial education offices and schools are given the discretion to determine how to manage various academic affairs* considering the trends in infectious disease by region and density by school. Please follow the instructions of each school for further details on the on-campus classes.

* △ Staggering school hours by grade and class △ Having a mix of remote classes and on-campus classes, △ Assigning some classes to the morning and others to the afternoon, △ Taking a flexible approach to the length of classes, etc.

- Beginning a week before the start of the on-campus classes, each family must participate in the self-diagnosis of students' health conditions through the NEIS survey system. **See [Attached 1].**
- Students suspected of having COVID-19 (fever of 37.5°C or higher, respiratory symptoms) must contact their homeroom teachers without returning to school.
- Please be sure to follow precautions while at school, such as frequent ventilation as well as disinfecting individual desks and personal belongings, wearing masks, washing hands, practicing good cough etiquette, and informing teachers right away when feeling ill. **See [Attached 2].**

Guide to the Self-diagnosis of Students' Health Conditions and Survey Questionnaire

<Eligibility Notice for On-campus Classes>

Since the result of your self-diagnosis survey for the prevention of COVID-19 shows no suspicious symptoms, you are eligible to return to school.

<Suspension Notice for On-campus Classes>

1. Since your child currently requires protection inside your home due to his/her health condition, please prohibit him/her from returning to school until further notice for the healthy school life of our children.
2. Even if the child does not return to school, he/she will be considered to have attended. Please provide protection to ensure that the student observes the precautions at home and takes sufficient rest until his/her fever and respiratory symptoms are gone (cough, sore throat, etc.).
3. If high fever of above 38°C persists, or if symptoms worsen, please contact the call center (☎ 1339, area code +120) or the relevant local health center and follow the instructions such as visiting a screening center and receiving medical treatment.

A Smart School Life to Prevent COVID-19

Open windows often to let fresh air in and clean your desk regularly.

- Occasionally open the windows for your health and that of your friends. Especially, do so right after arriving at school and during break, lunchtime, and clean-up time!
- Clean your own desk regularly.

This is how your school life should be:

- Always wear a mask during classes and breaks.
- Wash your hands often.
- When coughing or sneezing, cover your mouth and nose with your sleeve.
- Avoid physical contact, such as holding hands.
- Do not let others use your personal belongings.

Be considerate to your friends during lunchtime.

- In the school cafeteria, line up at double arm's length apart from each other.
- Do not talk while eating.
- Take off your face mask right before eating your meal and put it back on immediately after.

If you are feeling ill, tell your teacher.

- If you have fever, sore throat, cough, or runny nose, tell your teacher right away.
- If your friend becomes a confirmed case, do not panic; just follow your teacher's instructions.
